

LED replacement for fluorescent lamp

The LED lighting is the most economical light source, it does not contain harmful gases, it is not fragile, withstands hits and vibration, does not have annoying light oscillations and has the longest life – more than 5000 hours.

LED lamp LEDOT4X10EK

- 4 modules with 30 SamsungLEDs each
- Luminous flux: 3920 lm;
- Nominal power: 41W;
- Light temperature: 5000 K;
- Light color according to EN 12464-1: neutral white;
- Angle of illuminance: 120°;
- Nominal voltage: 220-240V;
- Working frequency: 50-60Hz;
- Работна температура: от -20 до +40°C;
- Lamp life: 50000 h;
- Equivalent to a fluorescent lamp with 4 60-cm tubes with total consumption 81W
